

## **POSITION: Student Intern**

**Miller Dunwiddie** is an award-winning, full-service architectural design practice based in Minneapolis, Minnesota. Work at Miller Dunwiddie spans a broad range of project types including aviation, transportation, faith-based and education projects as well as being a recognized leader in historic preservation. (See our work at [www.millerdunwiddie.com](http://www.millerdunwiddie.com))

Miller Dunwiddie is a group of talented, passionate professionals who are dedicated to working collaboratively to bring about the highest quality of design, program resolution and construction to a project with solutions borne from client needs. Our office culture is characterized by creativity, flexibility, and a focus on people. Due to COVID-19, for the safety of our staff and communities, our office (located in downtown Minneapolis) is available to staff but most are currently working remotely. As a part of the onboarding process for this position, a member of our staff can meet in person to answer questions and begin to assign tasks. Tasks given for this position will be a combination of work from a remote location and some work within the office.

## **POSITION:**

**Miller Dunwiddie** is seeking an undergraduate or graduate student with a strong interest in architecture, building science, or construction services to fulfill a part-time role during the school year and transition to a full-time position during the summer. Other interests could include sustainability, building forensics and materials science. Students in the College of Design, Civil Engineering and Construction Management programs are all encouraged to consider this unique opportunity to grow their skills and knowledge in the study and development of architecture and building envelope systems. As a student at Miller Dunwiddie, you will be asked to work on day-to-day office tasks as well as supporting our Architectural staff, Building Sciences and Construction Services Groups in their work.

## **QUALIFICATIONS:**

- Revit and/or AutoCAD knowledge
- Microsoft Office knowledge
- Strong verbal and written communication skills
- InDesign, SketchUp and Photoshop knowledge is a plus, but not required
- Willingness to provide support for on-site evaluations and assessments of buildings
- Willingness to support construction phase observations of construction in progress

All inquiries should be made through our Human Resources system (Oasis DEG). A link to their website can be found at [www.millerdunwiddie.com](http://www.millerdunwiddie.com) under the *Contact* heading. ***Please submit application through both Oasis DEG and University of Minnesota Handshake website.*** Please submit your resume and cover letter along with the completed application.

Miller Dunwiddie is an Equal Opportunity Employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, age, sexual orientation, gender identity or expression, protected veteran status or disability. If you need special accommodation responding to this ad, please call (612) 337-0000.
